## DESCRIPTION

Tic-Tac Match is a wildly unpredictable card game variation of the classic game tic-tac-toe. The unique double matching feature permits covering cards already in play, which eliminates frustrating ties, and guarantees a winner every time. Deceptively simple rules, with a few twists, makes Tic Tac Match enjoyable for players of all ages and abilities.

Players compete to align three Symbol Cards of BOTH the same symbol and the same color (either 'X' or 'O') in any horizontal, vertical, or diagonal row on a traditional 3 x 3 grid of cards. Select Action Cards radically alter the game play to provide deep strategies and an almost endless combination of moves. Players can flip sides mid-game, wipe out their opponent's hand or play two cards on a single turn. There is even a team-play version for four players.

Tic Tac Match is not just funner... it's WAY Funner!
